## Canapés

Depending on the timing of your wedding and reception, canapés aren't always required and so we don't include them in our wedding package as standard. However, we can easily provide them as an additional option and the following selection of canapés is offered with the aim of meeting both individual preferences and budgets. Each menu has been especially chosen by our chef to suit a range of tastes and dietary requirements. However, you are welcome to "mix and match" or even suggest some of your own favourites. Once agreed, the menu and price becomes fixed.
